

Purpose

This Gas and Electric Service Manual is published by Wisconsin Public Service Corporation (WPSC) and Upper Peninsula Power Company (UPPCo), hereinafter referred to as "the Company," for the convenience of the Company's customers and their architects and contractors. The information contained in the manual is in addition to the various municipal electrical codes, the Wisconsin and Michigan Administrative Code and any other regulations which may apply. The Company reserves the right to make revisions in these rules whenever changes in the art, legal requirements, or other circumstances make it advisable. These rules are intended for standard equipment installations. When, because of physical limitations of the premises, it is impractical to follow them, the Company shall be consulted for permissible modifications. The information contained herein does not cover in detail the requirements of the Company's rate schedules, extension rules, or general rules; the Company should be consulted for specific information concerning these matters.

The Company may refuse or discontinue service if a customer does not comply with these rules; however, the customer will first be notified and afforded reasonable opportunity to comply. Service may be discontinued without prior notice when a dangerous condition exists on customer's premises.
