

**2016 ANNUAL FUGITIVE DUST
CONTROL REPORT
WESTON DISPOSAL SITE #3**

December 19, 2016

1.0 INTRODUCTION

This annual fugitive dust control report has been prepared to meet the requirements of 40 CFR 257.80(c).

The Weston Disposal Site #3 Landfill currently consists of two cells. Cell one has not received ash to date. Cell two began active operations during the 2nd Quarter of 2016.

FUGITIVE DUST CONTROL MEASURES

Fugitive dust control measures are described in Section 2.0 of the Fugitive Dust Control Plan, Weston Disposal Site #3, dated October 13, 2015. Effectiveness of the Fugitive Dust Control Plan is evaluated during the weekly and annual inspections. A review of the weekly and annual inspections contained in the operating record was completed during the preparation of this annual fugitive dust control report and confirms that the fugitive dust control measures implemented at the Weston Disposal Site #3 Landfill are effective.

2.0 CITIZEN COMPLAINTS

The procedure for logging citizen complaints is described in Section 3.0 of the Fugitive Dust Control Plan, Weston Disposal Site #3 Landfill, dated October 19, 2015. There was one citizen complaints associated with the Weston Disposal Site #3 Landfill that was logged during the period covered by this annual report.

In response to the complaint, all dust control practices were reviewed with site operators and the Wisconsin Department of Natural Resources. No changes were made to the Fugitive Dust Control Plan, Weston Disposal Site #3, dated October 13, 2015.
