

WISCONSIN PUBLIC SERVICE CORPORATION

P.S.C.W. Volume No. 7

34th Rev. Sheet No. E6.10
 Replaces 33rd Rev. Sheet No. E6.10
 Amendment 797 Schedule Cg-20

Small Comm'l and Indus. Service-Time of Use

Electric

AVAILABILITY

This schedule is available to small commercial and industrial customers where one or both of the following have been exceeded for three consecutive months and also exceeded for at least one billing month in each succeeding rolling 12-billing month period:

1. Total demand of 100kW; or
2. Total monthly energy consumption of 25,000 kWh.

If the customer's system demand falls below 100 kW or the customer's energy consumption falls below 25,000 kWh for 12 consecutive billing months, the Company will complete a billing comparison using the customer's previous 12 months of consumption showing the customer's historical bills under the Cg-20 rate schedule and the Cg-5 rate schedule. If these bill comparisons show that the customer had a lower bill under the Cg-20 rate schedule than they would have had under the Cg-5 rate schedule, the customer will be notified that they can opt to stay on the Cg-20 rate schedule or be moved to the Cg-5 rate schedule. If the customer does not respond within 15 days of notification, the customer will remain on the Cg-20 rate schedule. This provision may be modified in future rate case proceedings.

For new customers the company may, at its discretion, waive the three month qualification period when, in the company's judgment, the customer would obviously meet the qualification criteria. The company shall inform the customer in writing that failure of the customer to meet the qualification criteria after a waiver is granted will result in:

1. The customer being immediately placed on the appropriate rate schedule, and
2. Backbilling to reflect the appropriate rate schedule from the date the waiver was originally effective.

CUSTOMER CHARGE

For customers with company metering equipment installed at:

	<u>Daily</u>
Under 6,000 volts	\$3.0575
6,000 volts to 15,000 volts inclusive	\$5.5890

The above listed voltages are phase-to-ground for wye-connected company systems and phase-to-phase for delta-connected company systems.

R CUSTOMER DEMAND \$2.457/kW
 Per kW of maximum demand during the current or preceding 11 months.
