

Large Commercial and Industrial Service - General		Electric		
<u>EFFECTIVE IN</u> All territory served.				
<u>AVAILABILITY</u>				
This schedule is available to large commercial and industrial customers who have exceeded 1,000 kW for three consecutive months and at least once in each succeeding 12 month period. This schedule is also available to small commercial and industrial customers who qualify for and contract for service under the Cp-I2 Interruptible Rider.				
For new customers the company may, at its discretion, waive the three month qualification period when, in the company's judgment, the customer would obviously meet the qualification criteria. The company shall inform the customer in writing that failure of the customer to meet the qualification criteria after a waiver is granted will result in:				
1. The customer being immediately placed on the appropriate rate schedule, and				
2. Backbilling to reflect the appropriate rate schedule from the date the waiver was originally effective.
