

Gas Transportation Service

Natural Gas

Continued from Sheet No. G7.61

1. The customer requests the gas Demand Service Charge Waiver in writing or by electronic means, and the Company receives this request by 9:00 AM at least two business days prior to the affected Gas Day(s). The Company may waive the notice period in its sole discretion, however, in all cases the request must be received prior to the start of the affected Gas Day(s). The Company will grant or deny, in writing or by electronic means, any requested waiver prior to the start of the affected Gas Day(s). The Company will deny all requests for waiver, received after the start of the affected Gas Day(s).
2. The waiver request is due to infrequent, unusual and short duration customer loads, such as the testing and/or maintenance of equipment, or short-term production requirements, etc.
3. The Company expects no adverse impacts to other customers.
4. The Company will report to the Commission all granted waivers by the end of the calendar month following the affected Gas Day(s).
5. The customer shall be subject to any constraints, curtailments or other limitations of service, as well as any associated penalties, charges or surcharges, during periods covered by Demand Service Charge Waivers.
9. Gas Service under this rate schedule is subject to all applicable rules and regulations of the Commission.
10. Measurement of gas delivered will be through the Company's meter at the customer's delivery point, and shall be adjusted to the Company's standard conditions.
11. Service under this schedule requires a written contract between the Company and the customer. Existing customers wishing to switch existing load to or from this rate schedule are required to provide a written notice to the Company by March 1 of each year. The Company will approve requested changes to switch load to or from this rate schedule that comply with the above notice requirement provided the customer's requested switch date is on or after the subsequent November 1.
12. The Company has, or will have, installed remote metering devices to monitor gas consumption. Customers taking service under customer classes Rg-T, Cg-TS, Cg-TM, Cg-TL, Cg-TSL, Cg-TEG, CSR-S, CSR-M, CSR-L and CSR-SL shall provide, at the Company's request, an uninterrupted supply of 120V AC electricity at the gas metering site for these remote metering devices.
13. Gas sales under this rate schedule by the WPSC gas utility to the WPSC electric utility for purposes of electrical generation shall be billed at the Cg-TEG rate, and shall include any fixed or demand charges.
