Power Generation Contracted Service

Natural Gas

1. EFFECTIVE IN: All territory served.
2. AVAILABILITY:
  - A. This service is open to natural gas fired facilities that generate electricity, either for their own use or for sale or use by an electric distributor for redistribution to its customers, whose situation, location on the natural gas distribution system, or unique load characteristics require limitations, definitions of service, are not consistent with or not adequately addressed in the company's other tariffs. Customers receiving service under this tariff shall be subject to the following:
    - 1) Has contracted for this service or provided Definitions of Service with the company at a rate filed with the Public Service Commission of Wisconsin (PSCW) and found by the PSCW to be above long-run incremental cost (LRIC) within the meaning of the PSCW order in Docket 05-GI-108 Phase I; and
    - 2) Is willing to abide by all terms of the company's appropriate gas service Schedules and riders except where modified by this tariff; and
    - 3) Has more than 15 MW electric output capability from the natural gas fired facilities that generate electricity and;
      - i. Requires more than 60# delivery pressure from the Company's distribution system or;
      - ii. Has a connected load, as determined by the Company in its sole discretion, greater than 300 MCFH;
  - B. This service is not available for natural gas used in large gas fired boilers where the primary use of the steam output from the boilers is not for electricity generation. However, the company may, at its sole discretion, waive this limitation for cogeneration facilities.
3. RATES: The rates for this service specified by contract as provided in Section 2.A(1)above, or for Definitions of Service are:
