

Wisconsin Public Service customers are making a difference in the environment... *and you can too.*

Our NatureWise renewable energy program makes it easy. Your participation strengthens the market for renewable energy, which can result in the increased production of electricity generated by renewable resources such as wind and biogas.

When you purchase NatureWise blocks, we produce or purchase renewable energy to match that portion of your electricity use. The renewable energy replaces the electric generation from traditional fossil fuel sources. However, renewable electricity is delivered on the same grid system as all other generation sources.

NatureWise is affordable for your business

Renewable energy is charged at a higher rate than energy generated from traditional sources. The additional cost goes toward the production or purchase of renewable energy and enrolling new participants.

NatureWise makes it affordable for your business to support clean sources of energy. With your enrollment, you can purchase "blocks" of renewable energy (1 block = 100 kilowatt-hours) for only \$1.277 per month. Buy as many or as few blocks as you want, and stay enrolled for however long you want — with no obligation.

Based on your typical electric bill and number of blocks purchased, your business will be recognized as a NatureWise Business Partner at one of the following participation levels: Advocate, Steward or Champion.

If your monthly electric bill is:		Added montly NatureWise payment		
		Champion	Steward	Advocate
Up to \$500	Number of blocks	6	4	2
	Monthly payment	\$7.66	\$5.11	\$2.55
\$501-\$1,500	Number of blocks	15	10	5
	Monthly payment	\$19.16	\$12.77	\$6.39
\$1,501 or greater	Number of blocks	30*	20*	10
	Monthly payment	\$38.31	\$25.54	\$12.77

*Purchase of 20 blocks or more require a contract.
